

SMITH ENTERPRISE, INC.

LEADER IN WEAPONS UPGRADES FOR OVER 40 YEARS

Fit, Form and Function Product Disclaimer

- I. To ensure proper fit, form and function of our products, functionality and accuracy testing will be done. SEI can perform these tests for a \$100 range fee, using the M80 Ball, 168Gr Hornady TAP and Lake City M118LR ammunition. All three types of ammunition will be tested for functionality.

If the customer wishes to opt out on SEI test firing the rifle, the customer will be responsible for all shipping costs, additional labor fees and range fees if there are any problems with the rifle after the customer receives it back from Smith Enterprise, Inc.

Yes, I would like for SEI to test fire my rifle.

_____ initials

No, I will do my own testing.

_____ initials

- II. Customers who choose to do their own testing have 30 days upon receipt of the rifle to test fire and notify Smith Enterprise, Inc. of any issues concerning the rifle. Smith Enterprise, Inc MUST make all repairs and adjustments or any warranty will be void.
- III. Smith Enterprise, Inc. will inspect all customer supplied parts for serviceability. If any part is out of specification, (springs, pins, ETC), that part or parts will be replaced by Smith Enterprise, Inc. and the cost will be added to the order. The customer will be notified by Smith Enterprise, Inc. of any changes made to the original work order.
